Projects

ShopVibe – AI-Powered MERN Stack E-Commerce Website — Jan 2026 - Mar 2026

- Developed a full-stack AI-powered e-commerce application (MERN stack) with advanced product search, cart and Stripe payment integration, alongside an admin dashboard for analytics, sales tracking, and product lifecycle management.
- Implemented AI-driven features using OpenAI API, including intelligent search, personalized product recommendations, and chatbot system, improving user engagement and enhancing customer experience.
- Built a secure and scalable system with JWT authentication and role-based access control (RBAC), and developed a responsive, real-time UI using Tailwind CSS and Socket.io for seamless, dynamic interactions.

Tech stack: HTML, CSS, ReactJS, NodeJS, Express, Tailwind CSS, MySQL, Framer motion

SportNova – Sports Talent Assessment Webapp — Sep 2025 - Nov 2025

- Engineered a full-stack sports talent assessment platform enabling athletes to upload performance videos and receive structured evaluations based on predefined scoring metrics, streamlining talent identification
- Implemented secure authentication and role-based access control for athletes, coaches, and admins, along with robust data validation and MySQL-based normalized database design to ensure reliable performance tracking.
- Built scalable backend APIs and core modules include video upload, scoring engine, and performance history dashboard, optimizing data retrieval speed and supporting seamless multi-user access.

Tech stack: HTML, CSS, JavaScript, ReactJS, NodeJS, Express, Tailwind CSS, MySQL.

Training

Java Maestro-Developing GUI Applications – LPU | Link — Jun 2025 - Jul 2025

- Built Wav Music Player, a functional GUI-based audio player featuring play/pause controls, track navigation, progress visualization, and responsive component layout.
- Gained hands-on experience with Java Swing components, layouts, exception handling, and modular programming to structure scalable desktop applications.
- Strengthened understanding of software design principles and real-time media handling within Java applications.

Tech stack: Java, Swing, OOP, GUI Development.

Certificates

Foundation of Coding Full Stack Web Development — **Nov 2025**
Microsoft, Coursera — Certificate Link

Master Generative AI & Generative AI tools — **Aug 2025**
Infosys Springboard — Certificate Link

Query Optimization and CRUD Operations — **May 2025**
MongoDB — Certificate Link

Data Structures and Algorithm — **Dec 2024**
Neo Colab — Certificate Link

Technical Skills

Languages: C, C++, Java, Python, JavaScript

Technologies/Frameworks: React.js, Node.js, Express.js, HTML, CSS, Tailwind CSS, Bootstrap, Git, GitHub

Skills: Data Structures and Algorithms, MERN Stack Development, Responsive Web Design, AI Integration

Education

Lovely Professional University — **Jalandhar, Punjab**
Computer Science and Engineering — CGPA: 6.52 — **Aug 2023 – May 2027**

Govt City Inter College — **Ghazipur, Uttar Pradesh**
12th with Science — Percentage: 66.00 — **Jun 2021 – Mar 2022**

Adarsh Inter College — **Ghazipur, Uttar Pradesh**
10th — Percentage: 75.00 — **Jun 2019 – Mar 2020**
